

September 13, 2023

To whom it may concern,

I take great pleasure in writing this letter of recommendation for Alex Hernandez, a student I had the privilege of teaching during the Spring 2023 Undergraduate Seminar Course. Throughout the course, Alex consistently exhibited an exceptional level of dedication and effort that stood out among his peers. What truly sets him apart is his unique combination of a positive attitude and an unwavering belief in his ability to continually improve a rare and invaluable quality that greatly enhances the learning experience.

I have every confidence that Alex will carry forward this same level of commitment and diligence in all his future endeavors. He was receptive to my guidance and encouragement as he pursued his educational goals. His research focus on "the future of AI as a programming aid" was both innovative and insightful. Not only did he submit a comprehensive technical report on his research findings, but he also delivered an outstanding technical presentation that demonstrated a deep understanding of the subject matter and offered a compelling vision of AI's role in the software industry's future.

Without reservation, I endorse Alex's application for the master's program. His exceptional qualities and dedication to academic and personal growth make him an ideal candidate. If you have any further questions or require additional information, please do not hesitate to contact me at moibrahim@cpp.edu

Sincerely,

Mohamed Ibrahim
